PROFILE

Financial Economics master's student with hands-on experience in management reporting, variance analysis, and financial data quality. Built Excel and Power BI reports comparing Actual, Budget, and Forecast, alongside analyses of spend, supplier performance, and operational KPIs. Advanced Excel user with practical experience in Power BI, SQL, Python, and Alteryx.

EDUCATION

MSc Financial Economics — Erasmus University Rotterdam 2025–2026
Relevant coursework: Risk Management, Advanced Investments, Behavioral Finance *Rotterdam, NL*

BSc Economics & Business Economics (IBEB) — Erasmus University 2022–2025
GPA 8.3 (Cum Laude), Thesis 8.5 *Rotterdam, NL*

WORK EXPERIENCE

Total Rewards Intern (Data & Reporting) - IDEXX B.V. Feb–July 2026

- Improved recurring Excel and Alteryx reports, cutting preparation time by about 40% and reducing manual errors.
- Ran data quality and consistency checks to deliver accurate reports under tight deadlines.
- Turned raw data into clear analyses and presentations for stakeholders.
- Analysed internal and external data to produce Excel reports and benchmarks across 20+ countries.

Project-Based Research Assistant | University of Copenhagen July–Aug 2026

- Cleaned and merged VES 2021–2024 data in Stata, creating a dataset with 3.7 million firm-year records.
- Standardized and verified 181 data mappings across firm, investment, and energy files.
- Detected duplicates, outliers, missing values, and structural changes across years to prevent misleading analysis.

PROJECTS

FP&A Planning & Performance Model [\[Link\]](#) 2026

- Built monthly, YTD, and full-year P&L views comparing Actual, Budget, and Forecast across four regions.
- Linked revenue, COGS, OPEX, and EBITDA variances to operational drivers across regions and periods.
- Compared Upside, Base, and Downside scenario impacts on FY2026 revenue, gross margin, and EBITDA by region.
- Built a Power BI dashboard combining executive P&L, variance, and scenario views for management review.

Customer Profitability Analysis | Power BI [\[Link\]](#) 2026

- Built a Power BI report tracking revenue, gross margin, ARR, NRR, and churn across customer segments.
- Analyzed cost to serve, CAC, and profit after acquisition cost at customer level to identify margin drivers.
- Flagged loss-making customers and linked profitability gaps to service costs and underlying operational drivers.
- Created customer deep dives and management watchlists highlight portfolio risks and priority management actions.

SKILLS

Data & Reporting: Excel (Advanced), Power BI, SQL, Python (pandas), Alteryx

FP&A: P&L Modelling, Budgeting & Forecasting, Variance Analysis, Scenario Analysis

Business Analysis: Management Reporting, KPI Analysis, Operational Driver Analysis

Professional Skills: Stakeholder Communication, Teamwork, Structured Thinking

EXTRACURRICULAR ACTIVITIES

B&R Beurs, Erasmus Investment Society – Member 2024–2025

- Practiced company valuation and financial modelling through weekly workshops and market simulations.
- Evaluated investment proposals with peers, discussing company fundamentals, portfolio risk, and market developments.
